Math practice that feels like play

A letter for families · International Math Bee® powered by BatterUp® 5G

Dear families,

This year our class is invited to take part in the **International Math Bee®**. Students play **BatterUp®**, a math baseball game for grades 1 to 6 that builds fast, accurate recall of addition, subtraction, multiplication and division facts. A full game is 9 innings and takes only a few minutes. The faster and more accurate the answer, the bigger the hit: single, double, triple or home run.

Each student earns a **batting average** in every math mode and can see how they rank at three levels: **State, National Math Bee® and International Math Bee®**. As batting averages rise, students climb four leagues: Little League, Minor League, Major League and Hall of Fame. Rankings show only an anonymous username, never a child's real name.

How to sign up at home

1. Create your free parent account at **portal.internationalmathbee.org/en/register**
2. Add your child and choose an **anonymous username** that does not include their real name.
3. Buy one seat for your child: **US$2.99 per month** or **US$32 per year**. Each child needs their own seat and login.
4. Your child plays at **game.internationalmathbee.org** on any phone, tablet or computer. There is nothing to download.

Our school is already in the International Math Bee®. When you add your child, please choose it from the drop down list exactly as written here. This is what lets classmates compete together, so please do not add the school a second time.

School name: _____ City and state: _____

Our class practice goal

Each week, please help your child play _____ full games in each circled mode: ➕ ➖ ✖ ➗

Short daily practice works best. Please play full 9 inning games.

Sharing the weekly score is your choice

Every Friday your child may bring in a **Weekly Score Slip** showing their batting average, signed by you. We use it to celebrate practice and personal improvement on our class chart. Taking part and sharing a score are both **voluntary**, and no child will be compared with another.

Please keep your child's password at home. I will never ask for it, and it should never be written on a slip.

Questions about the game or your account? Write to **buzz@internationalmathbee.org**. Thank you for cheering on our mathematicians!
