How to fill it in. You have a batting average for each math mode. After a full 9 inning game, color one baseball in that mode's row. Played more than 44 games? Just write your total. At the end of the week, copy each batting average from your scoreboard, one digit in each box, like .750.

Tied with a classmate? Click the **...** button at the top of your scoreboard to see your full 20 digit batting average.
Keep your password secret and never write it here.
