Student Guide: How to Play BatterUp®

International Math Bee® powered by BatterUp®

Play at: game.internationalmathbee.org

Your parent or teacher gives you a **Username** and a **Password**. Type them on the **Log in to play** screen and tap **Play!**. If you forget your password, ask your parent or teacher. They can reset it for you in the Parent/Teacher Portal.

Works on a phone or computer

Nothing to download. Open **game.internationalmathbee.org** in your browser, log in and play ball! A full game takes just a few minutes.

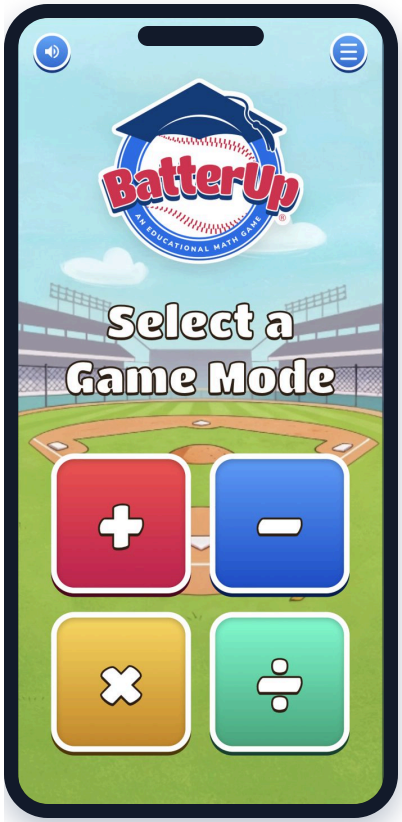

1 Home screen

Tap **Game play** to start a game.

Tap **Scoreboard** to see the rankings.

Log out signs you out of the game.

Your username is shown at the bottom, next to **Player**.

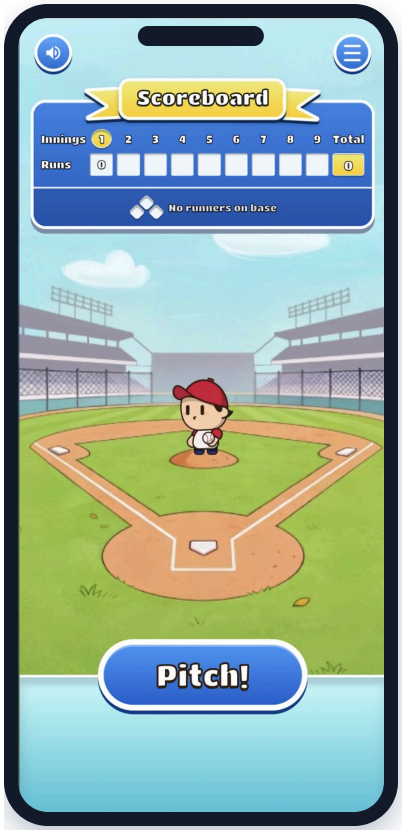

2 Select a Game Mode

Choose an operation:

+ addition − subtraction × multiplication ÷ division

You play one mode at a time. Each mode has its own batting average.

3 Batter up!

Before each inning you see the **Scoreboard**.

Tap **Pitch!** to start.

Every game has **9 innings**.

4 Answer the pitch

Each inning has **5 math questions**. Type your answer on the keypad and tap **OK**.

The bar under the ball works like a timer. The faster you answer correctly, the bigger your hit:

Homerun	You run all 4 bases
Triple	You reach 3rd base
Double	You reach 2nd base
Single	You reach 1st base
OUT	You are out

Answer fast and right to hit a home run!

5 Your 5 questions

The **5 dots** at the top left are your 5 questions. You get **3 tries** for each one.

If you miss a question 3 times, its dot turns **red** and the next question is pitched. If you have time left, the missed questions come back.

If time runs out before you answer all 5, you **strike out** for that inning.

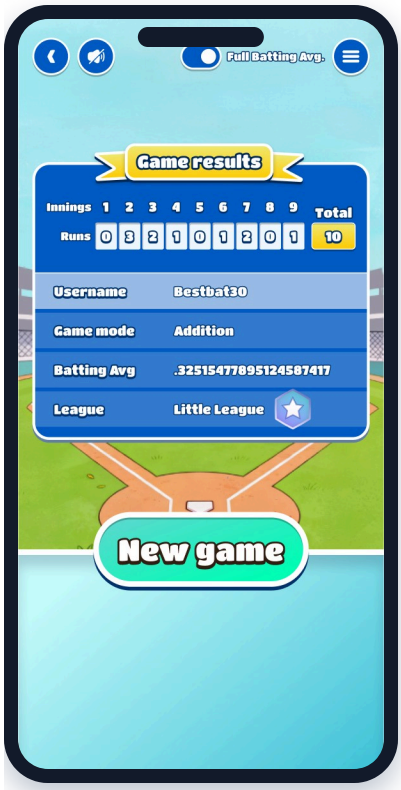

In this picture, the red dot is a question that was missed 3 times. Your league is shown above the dots, for example **Little League**.

6 Runners on base

The bases at the top right show your runners. A base turns **blue** when a runner is on it.

The number under the bases shows which **inning** you are in.

7 Game results

After the 9th inning, the **Game results** screen shows:

Runs	The runs you scored in each inning
Total	Your total runs
Username	Your username
Game mode	The mode you just played
Batting avg	Your new batting average
League	Your league

You must finish all **9 innings** for your batting average to update. Then tap **New game** to play again, pick another mode or check the rankings.

Leagues

There are four leagues. You move up or down a league depending on your batting average.

League	Batting average
Little League	below .429
Minor League	.429 to .641
Major League	.642 to .784
Hall of Fame	.785 and above

8 Scoreboard

Tap Scoreboard and choose a level under **Select level**:

International Math Bee®

National Math Bee®

State

9 See your ranking

At the top you see:

Username	Your username
Batting avg	Your batting average
Ranking	Your place
Grade	Your grade
School	Your school
State / Country	Where you play from

Your ranking compares you with all the other students in your grade.

Below that is the **Leaderboard**. You always see at least three players and where you rank among them. Switch on **Full Batting Avg** to see all 20 decimals. This example shows the International level.
